PROFESSIONAL SUMMARY

Data professional with 3+ years of experience optimizing pipelines & analytics across enterprise, public safety, financial and nonprofits environments. Delivered 20%+ gains in process efficiency and built 125+ real-time deployments—ready to drive business ROI in 30 days.

PROFESSIONAL EXPERIENCE

Data Analyst — *University of New Haven, West Haven, CT* **Oct 2024 – Present**

- Automated ETL pipelines (Python, AWS, PostgreSQL) for New Haven Police Department; eliminated 15+ hours/month of manual work
- Determined optimized patrol routes using DBSCAN-based raster and vector analysis of historical crime data, leading to a 15% increase in officers' response time and visibility in emergent zones.
- Built 5+ predictive policing dashboards with ARIMA/Random Forest, enhanced resource allocation

Student Associate — *Sodexo, West Haven, CT* **Jan 2024 – May 2025**

- Piloted a data-driven approach to inventory management for 500+ daily meals, cutting food waste by 8%, and presented findings to fix the three biggest causes of spoilage.
- Audited budgets, reducing food waste by 12% through better forecasting and cost analysis

Data Intern — *Downtown Evening Soup Kitchen, New Haven, CT* **Jul 2024 – Dec 2024**

- Streamlined donor ETL pipelines; increased data integrity by 30% across fundraising platforms
- Forecasted donations via Python, Excel and Power BI models; cut food waste by 25%, enhanced inventory planning and improved supply-demand alignment across meal programs
- Delivered 5+ real-time dashboards; improved visibility on volunteer and meal KPIs by 30%

Associate Data Engineer — *Cognizant Technology Solutions, Hyderabad, India* **Sep 2021 – Jul 2023**

- Processed 10M+ various AMEX credit card customer logs via Python/SQL across EMEA, APAC & US; enabled real-time A/B testing and localized insights, boosting CTR by 18% in 15+ countries
 - Deployed 125+ AMEX campaigns (AEM, JSON, React.js, Git); reduced offline dependency by 40%
 - Automated content ops across 300+ web requests; delivered updates for 15+ multilingual regions
-

EDUCATION

M.S. Data Science — University of New Haven, CT | GPA: 3.86/4.0

Courses: Data Analytics, Power BI, Natural Language Processing, Machine Learning, AI, Data Engineering

B.Tech, Electronics & Communication Engineering — JNTU, Hyderabad | GPA: 3.5/4.0

CERTIFICATIONS

- LLM Applications with Prompt Engineering — NVIDIA (2025)
 - Power BI & Dashboarding — University of New Haven (2024)
 - Adobe Experience Manager Sites Developer — Adobe (2024)
-

TECHNICAL PROJECTS

- Mind-Mate: Mental Health Chatbot (LangChain, LLMs, HuggingFace, FAISS)**
Engineered a Retrieval-Augmented Generation chatbot, utilizing LangChain, HuggingFace, and FAISS, achieving a 0.85 F1 score and perplexity score under 50 across diverse mental health queries
- Real-Time Smart City Monitoring (AWS, Spark, Kafka)**
Designed a streaming pipeline using Spark, Kafka and AWS S3 to process 10K+ daily IoT data points; reduced latency by 40% and visualized traffic insights in Power BI
- Incept-Face (Gradio, MTCNN, InceptRESNET)**
Constructed a modular facial recognition system using MTCNN for face detection & InceptResNet for feature extraction, shortening image processing time by 40% per image.
- Himalayan Climbing Trends Analysis (Tableau, R, SQL)**
Analyzed data to reveal peak trend and Everest's 185 summit-related death via interactive dashboard
